**CHIARA “** I would like to learn more English ready for my university next year. I have done FCE and now I need to practise especially speaking and listening skills because my written English is much better than speaking. I would like to learn many new phrasal verbs. Maybe also some vocabulary about medicine but speaking is more important. I would like to understand everyone even when they speak fast! My hobbies are cooking, listening to music and singing and acting. I sing in a choir. I like animals so I don't mind if the family have pets. It's good. Little children is also good.
